

INFORMER 1968

EDITORIAL

Hello from the INFORMER! After a lot of procrastination, we've finally gotten this, the first 68-69 issue of the INFORMER out for you.

We have a fairly representative staff this year, except for Grade Eights. If you Grade Eighters want a section in the newspaper, you'll have to choose one of your many capable friends to be your reporter. At press time, the INFORMER staff consisted of the people listed on the cover.

The INFORMER will be printed once a month and will look much the same as this issue. It is pretty well the same as last year as far as content is concerned, but the format is slightly changed. The Editor and staff hope by these minor changes to make the INFORMER more like a true newspaper.

We'll try to cover as many topics as possible in the INFORMER each issue, as our predecessors did last year. We need to make money on the newspaper and to do so, we need your support. It only costs a dime - everyone can afford that - so I hope each of you will buy a copy. The INFORMER is on sale just inside the main entrance and in the parking lot entrance, so no one has the excuse that they didn't know it was being sold.

If any of you have a suggestion or a comment to make, please write a letter to the Editor and place it in the suggestion box or give it to me in Room 87. The suggestion box is in the Library.

Thank you for buying this issue, and thank you Staff for putting it out. See you next issue!

TEEN CLUB

Recently, the Teen Club made a few changes in the YMA Hall, the most apparent being the divider. Behind the divider, the older people, (over 18) can go to sit and talk or play chess, cards, or checkers which are supplied by the club. In front of the divider there is a ping-pong table, a dart board, and places for the younger teens to play cards, checkers or chess.

The people responsible for these changes are:

Ron Binkley - Chairman
Bill Pyke - Vice President

Garry Leech - Secretary
Ken Jenkins - Treasurer
Barbara Hooper - Public Relations
Reg Sly - Property Manager

The new Executive has a lot of activities lined up for us in the coming months. The most up to date schedule is printed below.

NOVEMBER

9 Folk and Coffee House
16 Sadie Hawkins Dance
23 Bingo
30 Dance

CLUB NOTES

Science Club:

The Science Club is having a record raffle to raise money to go to Winnieget Easter time. Everybody please buy a ticket as they need the money desperately. The raffle is from now to the 31st with the draw on November 1st. (The draw will have been held before this paper is published).

Majorettes Club:

A very new club in the school, formed by Mrs. Brennan, is just starting, and practising in the hope of performing in shows in Shilo and the surrounding area.

Any organization that wishes to have an interesting display may call Mrs. Brennan to have it arranged.

Girls in Grade 8 to Grade 12 may join this club. Practises are each Tuesday night at 4 p.m.

Monica White

Cheerleaders:

Cheerleaders are underway again this year. The faculty advisor is Mrs. Snider and the elected captain of the team is Faye Johnson. Co-captain is Gwenn McCormick. There are eight girls on the team and one snare. The uniforms are the new ones that were made for us last year and already we have ordered letters for our sweaters and made green and gold shakers. Watch for us at all the games!

OTHER FEATURES

If you look through an old newspaper from last year, you'll notice that the average number of pages in a newspaper was about eighteen. Why then, does this paper only have ten?

To begin with, we're using a two-column page this year. It looks more professional, and though it takes a lot more work, we'll keep it that way for now. Somehow or other, when you type up a full page article in two columns, you're left with about half a column to fill in.

You'll notice that this year there is no humor page. There are two underlying reasons for that. Firstly, we get a lot of complaints about our choice of jokes, and secondly, because we need the jokes to fill in the little spaces at the end of the columns. You have to admit that it looks pretty dumb when the first column ends three inches below the second one.

Also on the humor page last year was the Pan Slanders column. We'd love to have this "advice to the lovelorn" article again but who will write it? If anyone's wondering, Pan Slanders is a take-off on Ann Landers and sometimes took up a full page in our last year's newspaper. No, you don't write in for helpful advice!

Well there's the explanation for two or three pages that are missing. Do you want to hear more? Okay. The Fashion Frolics page is only one page this year. Last year, one page was a picture drawn by Gwenn McCormick and a second page was an article written by an ex-student. This year Gwenn's doing both the article and the drawing and on one page, too. That's because of our paper shortage.

Paper shortage has made a lot of changes in our newspaper. Although we aren't going to use both sides of the page, as we were planning to, (just think, your paper would only be five pages then!) we have changed to a two-column basis and a single-

spacing basis and an "only give Gwenn one page" basis.

Last year there was a half page devoted to Grade Nine Gossip. I'm willing to give a whole column to Grade Eight and Nine combined gossip this year but again we need someone to write it. If you know of someone who seems to know everyone and everything, suggest to her that she come and see me for the position of "Gossip reporter". It simply entails finding out who's doing what, among the Grade Eights and Nines and writing it down similar to the gossip for the older grades.

Speaking of Grade Eights, as I mentioned in my Editorial, you don't have a reporter. Don't be shy, volunteer to write about what's going on down there. We in the higher grades don't have a clue about what's going on in that end of the school.

Another article that is missing in this paper but that will be in the next one is Our Man On The Bandstand. Our reporter interviews the various bands that play in Shilo at the dances and does a write-up on them for the INFORMER. So keep your eyes peeled for an article in the next issue on - maybe the Hyde Park Convention?

As soon as some new clubs get started in the school, we'll have a bigger and better club notes column for you. And we'd like a better name than just the dull old "Club Notes". Any suggestions? That's what the suggestion box is for!

The suggestion box is high on a shelf in the library on the side opposite the windows right beside the front door. Put your suggestions and comments in a letter to the Editor and drop it in the box. If you are a budding poet but bashful about bringing your scribblings to me, just drop them in the box. By the way if you know of any good jokes, we could use those too.

The Literary page is another one that is partly missing from this issue. We have some of the Fire Prevention essays in for Literary Page" this time but usually we publish good poems and short stories, penned by our fellow students. Note that the Fire Prevention Essays in this issue are not the winning ones-

FRESHIE DAYS

(from a Freshie's point of view)

Freshie Week was carried out enthusiastically by all parties involved, the seniors and freshies alike. This year hazing took place on Thursday and Friday of the last week in September. The usual activities of making the freshies look more beautiful with whipped cream, eggs and tomatoes in their hair, were followed up with girls looking very smart in their army boots and men's p. j. bottoms, and the boys in ladies p. j. tops and nylons looked quite seductive.

In the kangaroo Court, freshies and a couple of seniors were called up for trials. Those who tried to escape were quickly captured by the executors, who did a fine job. At the dance on Saturday the Freshies got back at the seniors during breaktime. It was a lot of fun. All of you Freshies who have just gone through this initiation, GO GET 'EM NEXT YEAR! Acknowledgement should be given to all who participated to make these "Freshie Days" successful.

FRESHIE DAYS

(from a senior's point of view)

Freshie Days were doubly good this year because we seniors had both the Grade Eights and Nines to pick on. On Thursday the Grade Eights got dressed up in their men's pajama bottoms (for the girls) and ladies' pajama tops (for the boys). Freshies this year were called "worms" and many were seen down on their knees begging humble forgiveness from the worthy seniors. The grade tens had the opportunity to "get" the grade eights in the morning while the grade twelves had their chance in the afternoon. Next day it was the grade nines and other new students' ill fortune to have to dress up. They came in all sorts and colors of costume with all sizes and shapes of plush toys and toothbrushes on strings and ropes around their necks. Then the fun began. The grade elevens and twelves had their freshies all day Friday and many were seen crawling on their stomachs or their hands and knees, through the aisles chanting songs. Many were seen with their hair plastered with flour and water paste, eating baby food on the school steps or sucking lemons. A lot of worms found out how hot tabasco sauce really tasted, espec-

ially on a green tomato, and exactly how easily a raw egg breaks. I think it is agreed that some overzealous seniors went a little too far this year but the Freshies seemed to take it in good humor. Whipping cream and paste in your hair is hard to get out isn't it girls?

Friday at four o'clock was the Kangaroo Court in the gymnasium. Tom Brown presided as Judge, Ken Jenkins was the Prosecuting Attorney Tony Thomas, Reg Sly and Garry Leech pushed, pulled, dragged and chased the accused to the stage where the charges were laid and the jury, consisting of about fifteen privileged seniors gave the verdict. Many were surprised when two seniors were hauled up before the court to take their due for being so hard on the Freshies! Peanut butter slapped on the face and molasses in your hair makes for good eating, doesn't it boys?! The court had to be called off part-way through the proceedings because of excessive rowdiness.

I hope next year is just as much fun!

TEACHER OF THE MONTH

Mr. Websdale

This good-looking, young teacher is starting his second year of teaching here...French and Grade Twelve English. Prior to this, Mr. Websdale taught in Brandon for a year and for three years in Fort Churchill.

Mr. Websdale grew up in Flin Flon, Manitoba, and went to University, mostly in Winnipeg. He has been married for six years (he can even remember the year, 1962) to his wife, Jill. They have two children, Michael and Paul, aged five and two.

Mr. Websdale is usually seen opening windows, (excuse: If I have told you once, I've told you a hundred times, we can't survive in this classroom with closed windows and a hundred arm pits), leaning back in his chair with his feet on the desk (hard-working?), telling jokes that only those who aren't day-dreaming hear, crucifying the class leaders, and stating to the class that they really do make stupid mistakes (impossible) on his easy (ha!) grammar tests.

Mr. Websdale's favorite sayings (or at least some of them) are: "sometimes I hate myself" (after he's scared the class to death), and "I know this is going to disappoint you but I have nothing for you to do." (Aw shucks!)

He likes Shilo (can you get that), cars, books, (he will read anything), Pierre Trudeau, July and August, good movies, steak, sleeping in, Henry Mancinni and of the modern groups he thinks the Mamas and the Papas are the best. He also likes watching TV and working (?). His dislikes consist of TV comics-especially Red Skelton-John Diefenbaker, January and February, and getting up early. Last year he was involved with the badminton, as you will have noticed by looking in the year book.

A propos, M. Websdale peut etre retour de l'annee prochaine, bien qu'il dit qu'il est trop de bonne heure raconter. (Groan. Sorry about that.)

L.P.H.

STUDENT OF THE MONTH

Ken Jenkins

Ken Jenkins certainly is not new to Shilo, having lived a total of seven years here. Before that he lived in Nova Scotia for eight

years, and in Ottawa and Winnipeg for three years each.

Ken is twenty-two years old and is taking Grade Twelve University Entrance Course. His favorite subject is Geography. Ken is particularly interested in Architecture; perhaps this will be his stepping stone to success and happiness.

Ken's main extra-curricular interest, apart from Helen MacDonald, appears to be his base guitar. Ken's favourite groups are The Jefferson Airplane, The Beatles, and The Action (naturally). His favourite records are folk or psychedelic while he enjoys reading books on architecture, and eating spicy food.

He has a brother, Doug, in Grade XI and a sister, Debra, in Grade IX.

When asked what he thought about Shilo, he replied, "I love it!!" His other likes and dislikes are apparently so numerous he has difficulty remembering them all.

We welcome Ken back to Princess Elizabeth and wish him good luck in all his endeavours.

V.L.H.

OUR PRESIDENT

Gazing down at PEHS we see a hustle and bustle of activities. The enthusiastic students are quietly(?) filing into the auditorium. What for? It's too late for assembly. Oh, its Election Speeches!

Back of the stage we see our future President, Tom Brown, waiting to give his speech. He's lived in Shilo for five years and he thinks this is his chance to do something for the school...like maybe give the school spirit a shot in the arm.

Sports are his line. Football, curling, basketball---that's where he's at. From the serious business of Freshie Initiation to just plain fun---trust Tom to come up with something original. To him success is just being happy. We think he's successful and we're glad he's our President!

Linda Schroeder

OUR STUDENT TEACHERS

Mr. John Birnie

In case you don't know who this guy is, he's the one with the lloonnngg side-burns.....well, they're longer than any I've seen on teachers.

He's majoring in History at Brandon University, with political science as his minor. His ambition at the moment is to be a teacher.

John Birnie comes from Keepawa.....the town he says sweared our football team at that dance. He's lived in Brandon for the four years he's been in university.

His opinion of the school is that it is a standard high school, although he hasn't been around to that many. Now get this....he says that the kids here are great....and of course we agree with him.

His hobbies are hockey, life guarding, (he can even swim), golfing, and music. (popular). His interests parallel his hobbies, and he likes to socialize. (ha ha) The Beatles, Stones, Doors Gordon Lightfoot, Scot MacKenzie, and Herb Alpert are his favorite groups and singers. His favorite records are records cut by these artists. (no kidding) He reads a variety of books, and his favorite foods are roast beef, turkey, and pizza. (He says that he is a conservative eater.) Mr. Birnie dislikes authority to a great extent, and would you believe aggressive girls. He also dislikes punishing students (hurray for our side)

Now for what every girl has been waiting for, he's twenty-one and NOT MARRIED.

Miss Janice Davies

(she's the girl among all those male student teachers)

She's majoring in English, so I guess that's why she's teaching my class lit. Her ambition is to be a teacher, a good one she hopes.

Janice Davies has lived all her life in Brandon....hmmmmmmmm

Her opinion of the kids in this school is that we're really good. (so far)

Janice's hobbies are summer sports, especially badminton. She likes music (any type) but especially modern, -- the Beatles Paul Bievere and the Raiders, the Ray Conniff Singers, the Stones,-- and novels with a universal theme such as discrimination. Her favorite foods are pizza, and Kentucky fried chicken. She dislikes people without a sense of humour.

She's twenty-one and not married, also.

Mr. Allan McAulay

By now, everyone should have noticed the tall, good-looking man who is constantly with our French teacher, Mr. Websdale. His name as you might already know is Allan McAulay.

He lived in Belmont all his life untill he came to Brandon to go to university in 1965. He majored in economics and minored in history. Of course, his ambition is to be a teacher!!

His hobbies are sports, such as hockey and football, and he's interested in everything except physics and chemistry. (he says that it takes too much brain work for those two subjects!) He has other interests but declines to mention them. (oh! I just wonder what they can be...) (ho...ho...)

The Irish Rovers, Gordon Lightfoot, and Ian and Sylvia are his favorite singers while of the modern groups, he likes the Beatles. Folk music and the more conservative Beetle records are what he listens to the most. He reads quite a few books, mostly ones on history and adventure topics. For food he prefers steak.

Roast pork is one of his dislikes, and he assures me that he has more only he does not wish them to be printed. (oh!) Good music, good cars (like a 1968 Montego), and nice women are some of his likes.

This may come as a surprise, but this charming man is not MARRIED!! He also states that he likes Shilo. (He knows which side the bread is buttered on...)

Red Balkwill

Red Balkwill has lived in Brandon all of his twenty-one years. (I hear he will be twenty-two on November 26, and we wish him a very happy birthday!)

At university, he majored in history and minored in economics and political science. (He says that he is much more interested in economics). His ambition is to go to law school and become a lawyer, but due to lack of funds he could not fulfil this desire.

Red Balkwill is very interested in world problems and anything but physics and chemistry. He enjoys playing golf and tennis. But that does not end that, he likes hunting (deer and ducks) and fishing.

The today Beatles, Otis Redding and Neil Diamond are his favorite groups, while he enjoys listening

FIRE PREVENTION ESSAYS

The Deer

Because of the many forest fires each year millions of dollars of forest products are lost. Thousands of animals lose their homes and many more thousands lose their lives. I am one of the latter!

I was a fine buck, seven years old when it happened. It was in the fall of the year my antlers grew in crooked that I felt the force of fire. It had been an extremely dry summer; no rain had fallen in three weeks. On this day there were dark and forboding clouds on the horizon to the west of me. Lightning flashed and thunder rumbled through the heavens. Suddenly with a tremendous thunderclap, a section of forked lightning jumped from an anvil-shaped thundercloud, and split asunder a great pine which stood thirty feet higher than the surrounding woodland. The fire spread quickly but I wasn't worried because the wind was from the west.

During the night, the wind had reversed so that when I awoke, it was to the cracking and popping of burning trees and underbrush.

I started running by great leaps and bounds; and beside me, ahead of me, and behind me, appeared all manner of forest creatures. Bear, lynx, fox, rabbit, squirrels, and raccoon, all trying for a common goal, safety from the fire. Some of them achieved, most did not. I was of the more unfortunate. In my headlong rush for safety I accidentally stepped in the mouth of a gopher hole. As I stumbled forward, my right foreleg broke and I fell in a crumpled heap. I essayed, again and again, to stand and run, but the pain was excruciating. The other animals had passed me in a flash; but after what seemed to me a long while, I thought I could distinguish a figure coming towards me through the flames. When the figure reached me, I found it to be a human.

When he arrived, he immediately tried to examine my leg but backed off with quite a few bruises from my sharp hooves. Then he glanced around and realized my plight was hopeless; so he took a gun and shot me through the back

of my neck.

The fire I have just described was an imaginary one of course, but it could have happened. Of all the animals killed by fire, over 90% of them could have lived if it weren't for people's carelessness. Perhaps a deer or another animal had died under the circumstances I described; but if not, don't let your carelessness cause it.

Never, Never, Never

"Night Grandpa," called Peggy as her grandfather slowly struggled up stairs to bed.

"Night Peggy."

With only Mr. and Mrs. Potts in the room a conversation erupted; the main character being Grandpa.

"He is a nice old man but he should be more careful about that habit of smoking in bed."

"I spoke to him about it and he said nothing could possibly happen with the fire hall just down the street. That man is very stubborn."

"Maybe we should try to teach him a lesson so he will quit smoking in bed."

"That's a good idea but how can we do it?"

"I haven't figured it out yet but we could just make a little 'fire' on the floor and then wake him up and tell him he did it smoking in bed."

"Yes, but after he promises not to smoke in bed ever again we will tell him the truth and explain that it could easily have been him."

"It sounds like a conspiracy in here. What's going on anyhow?" chanted Peggy as she entered the room.

"I guess we ought to tell you."

"I'm listening."

Well Peggy was told and they went upstairs to carry out the mission. Silently they took Grandpa's pipe and placed it on the floor spilling a few ashes. In a few moments the floor began to smoulder and "poof" it started to flame. Quick glances were exchanged and Mrs. Potts woke up Grandpa.

"Nothing can happen with the fire hall just down the street is that so?"

FIRE PREVENTION ESSAYS

"Fire! Fire!"
"Calm down Grandpa. You finally started a fire. Look at it now. Stamp it out Peggy."
"I'm sorry. I'll never do it again. Never, never, never."

A LITTLE BIT OF HUMOUR

Old fishermen never die, they just smell that way.

===

"I just came back from a pleasure trip."
"Where did you go?"
"I drove my kids to camp."

===

===

A naval officer fell overboard. He was rescued by a deck hand. The officer asked how he could reward him.
"The best way, sir," said the deck hand, "is to say nothing about it. If the other fellows knew I'd pulled you out, they'd throw me in."

===

The junior executive had been complaining of aches and pains to his wife. Neither could account for his trouble. Arriving home one evening, he informed her: "I finally discovered why I've been feeling so miserable. We got some ultra-modern office furniture two weeks ago, and I just learned today that I've been sitting in the wastebasket."

===

Little Johnny finally started school and his mother luxuriated in the sudden peace around the house. But after two weeks the phone rang.
"Frankly," said the school principal, "Johnny is more than we can handle. I'm forced to ask your help."
"Listen," she replied, "all those years I had him alone---did I call you for help?"

A young wife, just learning to drive the family car, had traffic hopelessly snarled as she tried to make a left turn. Excitedly, she turned to her husband and screamed, "What do I do now?"
"I don't know," he replied calmly. "But I'm sure if you'll just climb into the back seat, you can figure it out."

STUDENT TEACHERS (continued)
to any folk-rock records, and reading any novels on about every topic. For food, he likes eating steak, pizzas, and lasagna (I hope not all at once....).

He prefers not to comment on any of his dislikes, but he did mention that he liked aggressive girls! (dig that!) When asked what he thought of Shilo, he replied, "Though I haven't been here for very long, I like it. I find it better than I thought I would." (yeh for him!)

Lawrence Johnson

Lawrence Johnson is one of the student teachers who are now in Princess Elizabeth School. He came from New Westminster. He is in his fourth year of university and is majoring in history.

To him, happiness is "having a good time without getting into trouble". As a future teacher, he does not condone over-sarcasm with students. Success to him means having an occupation which he enjoys.

Mr. Johnson would like to teach in Western Manitoba and prefers grades 8 to 10 but he isn't particular.

FASHION

FROLICS

Well, welcome back! Another school year has started and so has the school newspaper. I hope to bring all the latest fads and fashions to you during the coming year on this fashion page.

Romeo and Juliet. Ring a bell? It should because it is the name of Franco Zeffirelli's latest movie and it will have a great affect on the fashion world. The mood caught up in this film is that of the Montagues and Capulets. Current versions of those Renaissance riches which are seen through out the movie are now the fashion: the new look. Velvet couplets are the scene of Romeo and Juliet. For Romeo a noble Montague shirt of velvet in black or deep purple. For Juliet, powder-puffer or candy (on this page) dotted with "pearls", on a low-scoop dress of ermy velvet, black or deep navy.

See you in the next issue.

"FASHIONS ON THE MOVE"

At noon, Friday, September 27, a Simplicity Fashion Show was held in the P.E.P.S. gymnasium. The affair was termed "Fashions on the Move" and it featured the very latest in fall fashions.

There were twenty different outfits, all modeled by P.E.P.S. girls. They ranged from pant ensembles in co-ordinated check and plain wool fabrics, school outfits in wool flannels, cottons, heek suedes, textiles, and corduroys, to evening formals in crepes, velvets, lace, and metallic brocades. The jewelry was by Coro and the shoes by Wild Woolleys.

The colours were lovely and the prints bright and lively, and the P.E.P.S. girls looked really nice. It certainly pays to sew!
